DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Paul Neils (Registration No. 33,102) on 11/02/2004.

The application has been amended as follows: Drawings: The following changes to the drawings have been approved by the examiner and agreed upon by applicant: the descriptive legend -- COLOR THERMAL PRINTER -- will be inserted in box 2 of FIG. 1. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Examiner's Statement Of Reason For Allowance

2. The following is an examiner's statement of reasons for allowance

Claims 1-16 are allowed.

Regarding claim 1, the prior art of record does not teach all the combined elements and components for an apparatus for a lateral edge position detector for a recording medium including lateral edges extending in a first direction of feeding said lateral edge position detector, including a counter for determining a direction of being up or down according to a phase difference between said A and B- phase pulses, and for counting said A and B-phase pulses,

Art Unit: 2854

wherein a counted number of said counter represents a position of said one lateral edge in a width direction crosswise to said first direction.

Regarding claim 12, the prior art of record does not teach all the combined elements and components for a printer including a printhead for image recording to a recording medium, including a counter for determining a direction of belong up or down according to a phase difference between said A and B- phase pulses, and for counting said A and B-phase pulses, wherein a counted number of said counter represents a position of said one lateral edge in a width direction crosswise to said first direction; and a controller for controlling said printhead according to said counted number of said counter, to suppress recording an image in a portion of said recording medium outside said one lateral edge.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record does not teach all the combined elements and components / elements as discussed above in the "examiner's statement of reasons for allowance".

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
